

## **Bear Lake Lake Rules**

### **FISHING METHOD AND EQUIPMENT**

Fishing is allowed only with a fishing rod, where there is a connection with one bait.

Fishing may be carried out simultaneously with a maximum of two (2) fishing rods and in such a way that it does not obstruct the neighbouring fisherman.

When fishing for carp, the use of braid as a basic fishing line is prohibited, and the use of a shock-leader and snag-leader is prohibited.

The basic fishing line for carp fishing must be at least 0.30 mm thick.

The length of the twine, measured from the carousel to the hook, must not exceed 50 cm.

During fishing, the angler may place a maximum of two (2) markers (such as H-buoy, rod buoy, etc.) and attach it to the length of the throw with a fishing rod. He must remove them from the water after fishing.

The fisherman can protect himself during fishing and from adverse weather conditions (rain or sunburn) with a tent, fishing umbrella or bivvy of camouflage (dark green) colour.

The use of open flames is strictly forbidden!

Carp fishing is prohibited in the area from the beginning of the piers to the small beach (the exceptions are "dugout" and "benches"). No bivouacking or use of any other weather protection is allowed in this area.

Fishing spots under the Ribič bar are entry and exit points for sailboats. The fisherman fishing there must take this into account.

It is forbidden to cut aquatic and riparian vegetation, as well as any other "arrangement" of fishing places.

### **FISHING TECHNIQUES**

Permitted techniques for carp fishing on a mining lake are: bleaching and bottom fishing (including weight-bearing carp fishing, in accordance with the restrictions in point 4. Fishing methods and equipment). the carp technique called "Zig-Rig" is forbidden.

When fishing for carp, a boat or other vessel may be used for: transporting fishing equipment to the fishing place, for sonarisation, for placing markers on the length of the throw, for feeding and for possible rescue of fish caught in water obstacles.

## PERMITTED BAITS AND LURES TO ATTRACT FISH

Fishing is allowed with artificial baits and baits of plant and animal origin. The use of: live animals (except earthworms), animals or raw materials from animals that are endangered and protected in accordance with the regulations governing nature conservation and substances containing toxic or intoxicating ingredients is prohibited to attract fish and bait when fishing.

## HANDLING OF FISH CAUGHT AND MANDATORY ACCESSORY

Fishing for carp with obtežilnikom is prohibited without the application:

- bathtub carp (carp cradle)
- disinfectant for fish (antiseptic)
- Fishing with a side of at least 90cm and bags for trash

Caught fish may only be caught with a wet hand.

Trapped fish must be released back into the water alive or unharmed as soon as possible (max. 5 minutes) or killed in such a way that the fish are not tortured.

The use of nets for the storage of live fish is not permitted.

When fishing, the fisherman must carry fishing tackle (pean or pliers).

Navigation mode: The use of a paddle or electric motor is permitted. Permitted use of belly boat. Trawling is permitted, but not in the vicinity of the fishing ground where the other fisherman or swimmer is located, and fishing is prohibited at the marker's feeding site.

Permitted daily catch of

1 carp or 1 sick or 2 tench or 3 chub or 1 grass carp or 1 kg of trifle (perch, red-eyed, red-feathered)

Allowed type of fish:	Min size / max Weight	Hunting Season
Carp	up to 5kg	01/01 - 31/12
Line	30cm	01/07 - 30/04
Maple	30cm	01/07 - 30/04
Cupid	up to 10kg	01/01 - 31/12

The permit is not transferable. We kindly ask you not to trample on grass or crops unnecessarily and to leave your car in a suitable place. Thanks
